Class of 85

Stitch School of Medicine

First Year Class

1981-1982

G R O U P pages

Last spring the officers decided terms would run for one year, from April to April. Your officers for this term are: Randy Peoples, President; Kevin Cox, Vice President; Bill Hoffman, Treasurer; Brad Koloms, Secretary; Julia Cooper, John Andreoni, Class Reps. We all are representatives of the Class of '85 at Student Union meetings, and are able to vote on Student Union issues at these meetings.

Jim Zidar has been confirmed as our official rep on the Financial Aid Committee. I mention this now in light of the financial aid crisis we were all notified of last Friday by Dean Tobin.

WALKER WYNKOOP has taken the blood drive matter into his own hands. His organizing and creative ideas have gotten 31 units donated (as of 9/20) GREAT JOB WALKER!

GEORGE CHRISTY has agreed to organize a party to be sponsored by our class and the Student Life Committee for the Mad, Dent, Nursing and Dental Hygiene students. Student Life Committee covers any loss, we get any profits - Pretty good deal, huh? It is tentatively scheduled the week after 2nd set of exams. Please help us!

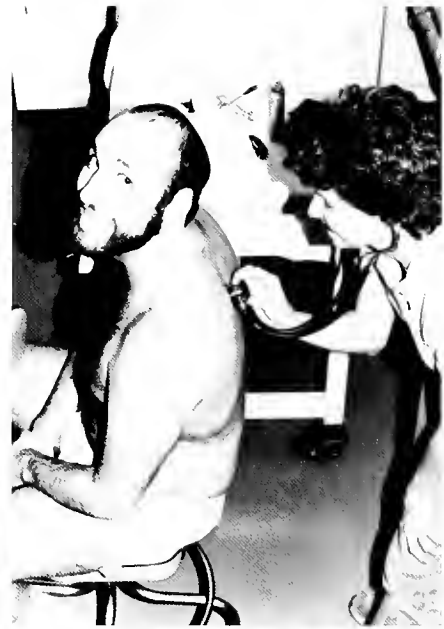

ERIC KUHN is doing a superb job running the Class Notes. He'll be reporting the financial situation of the 1st third of the semester in the next news letter.

Jim Zidar — Financial Aid Representative Report: On Sept. 8 the financial aid committee voted to make the limited funds available even more difficult for the average student to obtain. These more stringent rules stem from a simple problem: demonstrated need after GSL - 1.2 million dollars while Loyola funds (including HPL and NDSL) equal \$600,000. Students who qualified for low interest loans last year may not qualify, this year. Married and independent status students will be hardest hit. Anyone who does not qualify for the loan they felt they deserved or who has special circumstances, a formal appeal may be made to the committee. Anyone who feels they fall into this category please contact me. JZ.

There will be a Miniature Golf Tournament Sunday Sept. 28th at 3 pm at Fresh Meadows Miniature Golf Course on Carmak, about 1/2 block west of Wolf Road on the right side of the street. Fees will be \$1.00. Three prizes will be awarded: 1st and 2nd places, and "Most Honest Golfer." Prizes will be a bottle of wine, a McDonald's gift certificate and \$. Sign up with John Saxer and notice the rules. Fees must be paid when you sign up. Also a bowling tournament is in the planning stages. If you have any ideas about it tell John Saxer, Dave Rosenbaum or Kevin Cox.

The start of school brought the "Invasion of the Body Snatchers" as LF was spotted in the hall talking to a tall, dark, and freshman guy. Keep us posted ... A Source at Brian Bana's party spotted VC with a handful of papertowels, cleaning off the drink she spilled on a handsome unidentified guest. She's since been spotted at some of Maywood's finer hot spots draped on his arm. Glad your technique worked ... BB's party was spiked with other excitement too - Ann Mincloft could barely be seen as she was circled by as many as 3 freshmen men. It was either her cologne or the 4 glasses of

Brian's "special sangria" she had that kept the circle so close that one guest was reported as saying "Who knows WHAT'S going on in there?" ... But it wasn't just the women of the Class of '85 who were looking for greener pastures - STEVE COHEN is it true you've been out with 53 freshman girls already? Maybe you'd better start putting notches on your SEAT BELT! ... TIM STECK and TOM LOSASSO are reportedly growing mustachea, more on that later ... Good Luck to our own "ROCKY" Koloms in his quest for the "Iron Man" title in Hawaii over fall break ... Congratulations to Chris and Paul Ingle who'll be celebrating their 10th wedding anniversary over fall break. These days you two are a LEGEND! ... Mike Gutzait is reportedly beside himself with joy since learning the news that RICHARD BURTON, LIZ TAYLOR and Marie Osmond will all be featured on the LOVE BOAT this fall ... Move over,

Connors and McEnroe, our own LESLIE JACOB'a took 1st place in woman's semi-pro tennis in the state of Nevada over the summer. Look for Leslie's signature on designer stathoscopes this fall ... The coosome twosome of TIM NYPAVER and MICHELE LAUER stunned diners at Arnie's restaurant by eating their dinner and paying their bill in celebration of Michelle's birthday ... The Marines are looking for a few good men, but JOAN LEWIS is quoted as saying she's "looking for ANY good man" ... The "mini" is back and few are wearing it with as much flair as PATTY NAUGHTON and CLAUDIA TALLAND, judging by the ganders their game were getting ... Gamblers Anonymous meeting, see KEVIN COX for details ... Onlookers gawked as RP led four pre-pubescent debutantes into a linen closet of the Med Center last month - was that included on the tour too, RANDY? Congrats to Lady D!(Skocypec) RYAN and her husband STEVE. The ROYAL WEDDING took place Aug. 8 ... Did TONY M. really have BLUE HAIR a few weeks ago?

CONFIDENTIAL TO KINK IN THE SINK: I advise you to lose some of that fat, then try to get into the purple pantyhose. "Hey man, the closest thing to a human body is a sheep." Abby Eshagpour
SONG FOR SOUND by David Nelson The

quell egg entices the skunk and his rude effections but Phoebe peys court to her diving board. Affectation is averthink everywhere with only the Tapeworm dissenting. As Aphrodita toyed with Henry's heart and Maria's haed Nature's Berd will cut the final Scena with sheep end cobres as Principals. Vulcan's moon shines coyly as nebulas burst end fall in Hollywood. What do bombs sound like?

Avoid late end unseasonable Studies, for they murder Wit, end ere very prejudicial to Health. The Muses love the Morning, and that is a fit Time for Study. After you have din'd, either divert yourself at some Exercise, or take a Welk, end discourse merrily, end Study between whiles. As for Diet, eet only ea much or more then the Appetite may creve. Before Supper, take a little Welk, end do the same after Supper. A little before you go to sleep read something that is exquisite, end worth remembering; end contemplate upon it till

you fell asleep; and when you awake in the Morning, call yourself to an Account for it.

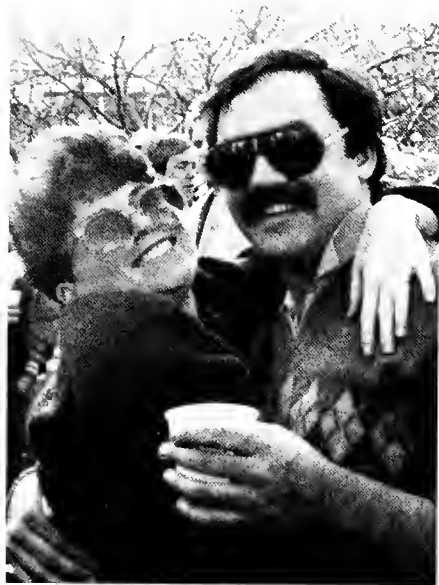

From John Starba: LUMC is heving e SKI CLUB this eason, for both elpine end nordic skilers. We've planned 7 weekend ski trips in the upper midwest including bus transportation, lodging, 2 day lift tickets, meals, parties end NASTAR races.

AMSA INSTRUMENT SALE Nov. 15. AMSA members receive a discount. If you wish to join AMSA end receive a discount your application must be submitted by early October.

The AMSA SHORT WHITE COAT SALE will be Tuesday, Sept. 28 12:30-1:30 at tables outside of the classrooms. Reps from Dell Medical will heve samples on hend, end AMSA will collect money es they take your orders ... So, remember your cash or check!!

CLASSIFIED: Joen Lewis: I em selling 2 twin beds (\$50/35), 1 secretary roll top desk (\$35), 1 chair (slightly tattered \$25), 1 sofa (green brocade type circa 1963 \$30), 1 chest of drawers (\$30).

"Teacher of the year" election was e tie between Dr. Thomas end Dr. LaVelle. Both will be honored at St. Luke's Night. Dr. Lorens is interested in seeing students to discuss the content of his lectures. He is concerned that his conceptual approach for some students may not stress

sufficient therapeutic application. His office is in Bldg. 135; his Ext. is 3400.

Dr. Karczmar sent notes to students that were not too successful on the last exam. He would like to talk with these students and maybe give a bit of advice on studying for pharmacology. Remember, there were no failing grades assigned on the first exam. Tutors are available for anyone.

The week after tests we'll be taking an opinion vote on the 2 issues I explained in the last newsletter: sending flowers to funerals and Casino Night. See also Kevin's report (next) on Casino Night. I have been assured that measures are being taken to remedy the "jamming" slide projector in our classroom - in fact it should be replaced or fixed by the time this newsletter is out.

SPORTS - How's this for staying in shape all you weekend joggers and recreationists? Brad Koloms, second year medical student and behind-the-scenes Iron Man, recently ran in the Budweiser Light World Championship Iron Man Contest in Kona, Hawaii. Not only did he finish, which is quite an accomplishment in itself, but he placed 548th out of 850 people.

PERSONAL & CONFIDENTIAL TO J.C. ... Jamea is understandably fascinated with your suggestion but is curious. Under the influence of propranolol, can orgasm be

faked?

To those who were quick to criticize Dr. Friedman for requesting extra time to complete his 9/29 anti-convulsant drug lecture: The fanga that began to amerge were reminiscent of the Dr. Gordon crucifixion. **WHAT'S THE BIG DEAL ANYWAY?** He could easily have expected us to learn the material on our own and been responsible for it as other profs. have. But no, he offered to give us the opportunity to hear him present it. He is only human, and sometimes things just don't go as you have planned. (Name withheld by request).

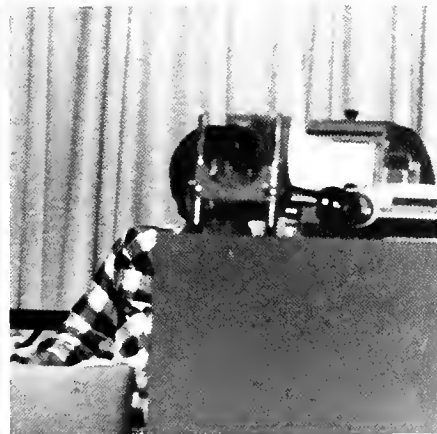

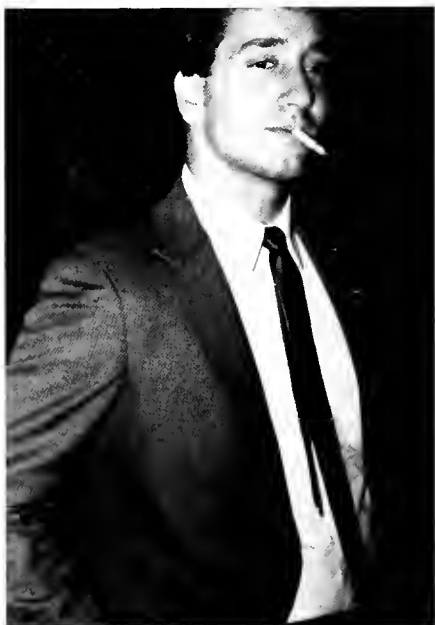

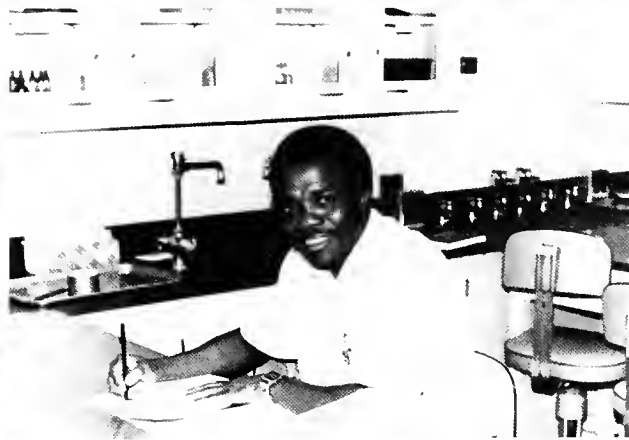

BIOCHEM. SEMINAR Oct. 28, "The Heterotrophic Nitrification by an Alcaligenes Sp." Presented by Dominique Castignetti, Loyola 4:00, Rm. 5892.

MOVIE Oct. 29, Halloween, 6 P.M., \$1.00, Theater.

PARTY Oct. 29, Dental School sponsored. NOV. 8 Monday, Dr. Hering (director of

Physical Diagnosis) will speak to us about the instruments we need for next semester. Classroom, 12:00-1:00.
BLOOD DRIVE We have collected 59 units of blood so far. There are plans to extend the goal (if funding can be found) to 200 units. So keep the blood coming. Once there is a hard frost, students with allergies will be able to donate, so we'll look for your help sometime after the tests. Walker Wynkoop.

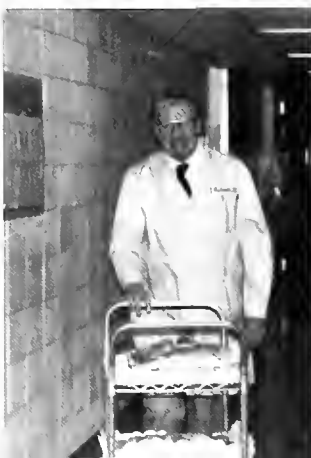

"It would be a wonderful idea to have all medical students have a shot, uh, inducing food poisoning ..." H.J. Blumenthal
 "... You know, women give childbirth to newborn children." W.W. Yotis
 "The infant wasn't getting up and walking around ..." H.J. Blumenthal
 "In large metropolitan area - problem with gonorrhoea because you don't know who your partners are." W.W. Yotis
 "You're supposed to help your patients, not turn them into monsters." A.H. Friedman

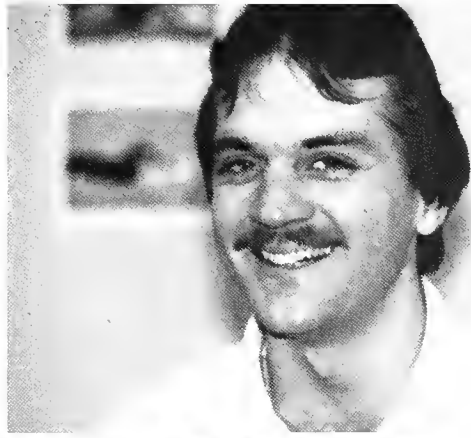

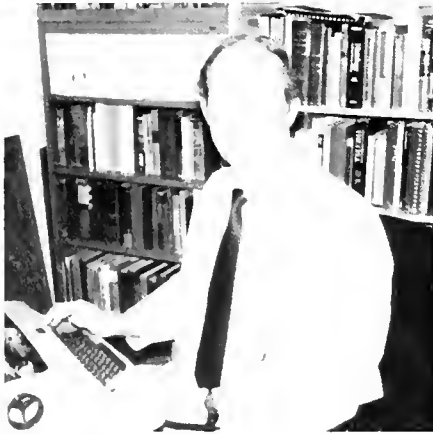

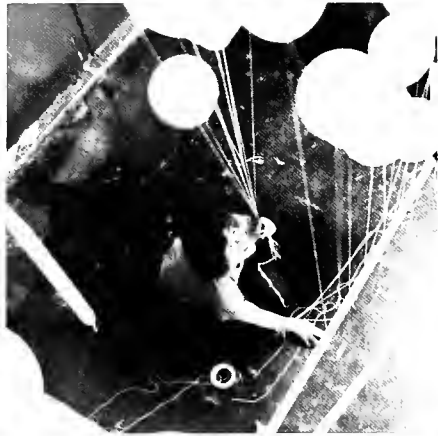

"How many here have had uh ... uh ... uh ... Am I exaggerating?" H.J. Blumenthal
 "The youngest reported case of gonorrhoea was a youngster, 6 yrs. old ... you know perhaps he ate a lot of hot peppers." W.W. Yotis
 "Where the hell am I?" A.G. Karczmer
 "Do the wet mount with a jerky motion." J. Russell

"I'd like to invite you to an elective in your clinical years for sexually transmitted diseases which we provide to you ..." P. O'Keefe
CLASSIFIED Color TV, 25" diagonal, Mepile cabinet, good condition, some problems with UHF. Circa 1963. \$125. Contact Joan Lewis.
 Speaking of fantastic, I think all would agree that our own Sax Virtuoso Dava Harris and his band Nightwatch made the night - and thanks to Dave, more than a few MSII's catharted their rock star fantasies on stage. George Christy was the mastermind behind this party and deserves credit for initiating and organizing the whole idea.
 Remember Don R? Part-time med stud, part time football player? Well, just recently Don's team won the Metropolitan Football League Championship 18-14. Rubo, alias red nucleus, played an excellent game at

tight end and on the special, leading the River Groves Cowboys to victory. The game may be seen on cable in the near future. However, I feel it is very inconsiderate that faculty, staff and other students in this class feel that some of us have nothing better to do than hang around the medical school after scheduled classes. Medical school is only a part of my life. I have other obligations to work and to my family for which most people around here have no consideration . . . Just because teachers are disorganized or the administration is unable to get their class schedules straight doesn't mean I can be late to work without some prior notice. And I'm tired of being treated as if LU Med Center is the only place in the world that exists. Name withheld.

MONDAY DEC. 13 "Conformation of glycoproteins: NMR and circular dichroism studies of the antifreeze protein of polar fish" Dr. C. Allen Bush, IL. Institute of Tech.

IMPORTANT NOTICE: Alcoholica Anonymous meeting every Thursday at 7:30 in 2708. Open meetings the last Thura. of each month.

AAMC Project: General Professional Education of the Physician and College Preparation for Medicine Fri. Nov. 19 Lower Level Audit. "Fundamental Skills" with Drs. Braithwaite, Brooks, Brumlik, Cross, and Frazier (2-4:30).

WED. DEC. 1 Training in Personal Values and Attitudes with Dr. Cross, Micatich, Moran, Ozar, Rainay, Renshaw, Steinecker, Thomaama, Tobin (2-4:00).

DINING *Annie's Santa Fe* in Oakbrook Shopping Center: Good Mexican Food, nice atmosphere, great margaritas, pleasant and efficient waitresses, and relatively inexpensive. Not completely authentic, but very tasty. Highly recommended: Chimichanga, and Chimichanga Florantine. (But lets be serious, all we really want is the free food for Happy Hour . . .)

PARTEEE!!! HEAR YE, HEAR YE!!! All are invited to an authentic Roman Toga Party at the Kev's place this Saturday, Nov. 20 at 8pm. The palace is at 304 Clinton Ave., Oak Park. All togas will be personally and individually inspected at the door. BYOB, S, D, (R and R will be provided) TOGA! TOGA! TOGA!

DEAR ABBEY: School is driving me up the wall. What do I do? Quit now or later? (I'm starting to feel like one big bezoar). Dear "Bezoar" Student: I can really relate to your problem, and sometimes I feel this way too but, buddy, we got no choice. My advice to you: hang in for another 4 weeks and everything would be over for a while.

"Remember this disease when you are involved with patients who are sexually active" H. Matthews

"The rat flea is our friend." W.W. Yotis
"Regularly they report on a regular basis." S. Lorena

"OK, now let's take a hand vote - how many want it and how many don't?" W.W. Yotis

"Hopefully these patients are few in number but they're annoying when they show up." T. Smith

"You get a scrotal reaction with a . . . You know." W.W. Yotis

"What Ruth doesn't know won't hurt her . . ." Stu Goldman

"It's going to be long today" R. Millar
 "... classic hardball neuroanatomy." Castro
 "... psychoceramics ..." Hillenbrand
 "This is a stellar handout." J.X. Thomas
 "Calcium, calcium, calcium" J.P. Filkins
 "You're going to have diabetes again and again." J.P. Filkins
 "Get the bag out." C.L. Webber
 "It's not just a filter!" C.L. Webber
 "Is there a problem here?" A. Gordon
BLOOD DRIVE REPORT Over 80 units of blood have been collected so far. Bill Hoffman has been working hard at arranging more donations so that we can extend the drive past 100 units; so we hope to keep the drive going all year. Remember those that repeat get a \$5 TGIF or 2 lunch passes. Please donate! Walker Wynkoop.
 Like everyone else I'm beginning to wonder about how best to prepare for part

I of the Board that we will be taking in June. Tim Tsol has done a super job of organizing in order to get group rates for the Kaplan course. Those who can afford it know that the Kaplan system has merit and, at LU at least, has a good track record. For those of you wondering if they might be an alternative to the Kaplan course (or if you're manic enough to want the Kaplan course and a home study course) I offer the Munson Minimal Money Method, a non-profit cooperative idea solely for sophs.

To have a good coop requires planning and an organized approach. This takes time (which is rapidly becoming a scarce item). If there are other ideas and proposals in the class, they should be brought forward and dealt with now, not just before finals when nobody has time to consider it.

The results of our last "opinion poll" were: 1) Funeral flowers: send to parents only - 26 votes; send card signed by everyone in class - 21; other 26; the "other" consisted mostly of people that wanted *both* of the choices above, and to include grandparents and siblings. To resolve the issue, I decided the following: flowers and a card signed by the class will be sent to parents' funerals, cards will be sent to grandparents' and siblings' funerals.

We have three new additions to the Class

of '85: Mike Rezak, Steven Sainati, and Jay Tomeo. Welcome guys! This brings our official Class count to 129.

Any more questions? Ask Lydia Collins, President of our newly formed Photography Club.

As for the matter of Organ Systems lectures running overtime, I'm sure most of you are aware that Doctor Braithwaite (course director) feels it is important that we get our breaks and that the classes run on schedule. She asked that I, or my designate, announce to the lecturer to please summarize the lecture when there is 30 seconds remaining.

I was appointed by the MSU to initiate the renovation and redecorating of the Student lounge. Two hundred dollars was allocated for that purpose. Anyone who has a flair for interior decorating and wishes to help, please contact me. John Andreoni.

FEBRUARY 18, WEDNESDAY 3:30, L.L. Auditorium Ambulation of Newborns with Staphylococcal Bacteremia. Harold Blumenthal, Ph.D., Loyola-Stritch.

APRIL 5 Deadline for National Boards Part I Application.

BARRISTER This column is being provided as a source of general information in the field of law for the purposes of self education. Any questions or comments are welcome. *What is Law?* Various definitions exist for the term law.

"You frequently see people like this walking around on the street and you wonder, Are they acromegalsics?" L. Bakeris

"Some people get off the plane and dive right into the sack." S. Lorenz

"While sleeping your pharynx contains what you want to bed with." Dr. Gross

"Next time I show you some skin." Dr. Eng

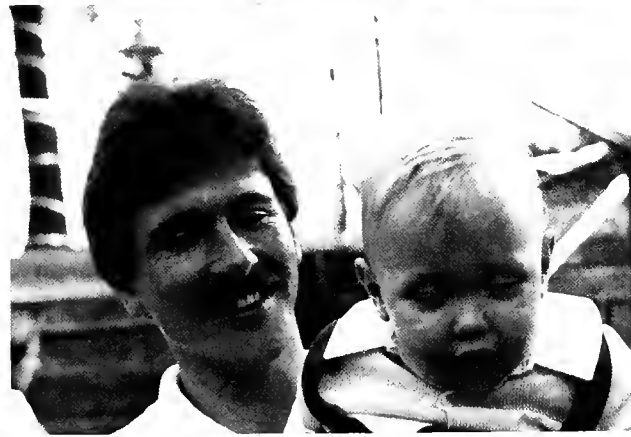

"And on the next page of your handout" Dr. Davis

"This is a real case, but we'll make it hypothetical." Dr. Goldberg

The donor room is prepared to take any student that drops by; just let them know that you are a student (no appointment needed). Walker.

The graduation committee has met several times in the last month - the first matter to consider: a *speaker*. The following have been nominated: ISAAC ASIMOV, GUYTON, WATSON (of Watson and Crick),

BERNE, LEVY, WYNGARTEN, SIR JOHN ECCLES, DANNY THOMAS, LEON KASS, JOHN STONE, AND BROOKE SHIELDS. The committee will make a ranked preference list of the nominees. There are many parameters which are involved with this ranking, such as: the class preference, the speaker's fee, administration approval, and impressions of those who have heard the speaker in the past.

The clerkship track lottery ran smoothly - it took exactly 30 minutes; 17 people used the option to change their original choices by being present at the drawing. Jeff Aoki was drawn first, Tom Tomesik last at #129, but \$10 richer!

MIKE GUTZEIT revealed that he's been practicing his physcals with BILL HOFFMAN (don't worry, BILL, he didn't tell us any VITAL STATS; but we got a pretty good idea anyway after MIKE'S wife NANCY asked JIM STINNEFORD for your phone number ...) ... Admit it MIKE LANDAU ... the real reason you sit in the front row is to bolt out that door in record time to see your cute new girlfriend! ... Ever since Julie Cooper started dating a resident she met at P-DOG, she's been raving about all the 'hands-on' experience she's been getting. (Share the wealth, honey) ... MIKE LUU, the Vietnamese Sex Machine, claims chicks have been clamoring all over his body - apparently mistaking him for Mr. T. The Bookstore finally got a new shipment of "DR.

SPOCK'S Parenting Made Easy" after they were ewamped with requeets by TERRY MAYERS, MARK DIAMOND, WALKER WYNKOOP, DAVE EVANS, FRANK PARKER, STEVE SAINATI, AND PAULA OLEN-MIKRUT ... Staying at Loyole meant "Looking for love in all the wrong places" for BOB MILLAR and BRUCE LOWRIE. They're waiting to hear about their pending transfers to Iowa and Case Western Med Schools. And BOB, is that rumor of a December wedding true? ... Add still another scratch-out to those Little Bleck Books girls, TOM TOMASIK just announced his engagement ... Nothing but RAVES for those new do's on PATTY NAUGHTON, TOM DUCKETT, DAVE FRANK, and CLAUDIA TALLAND ... Unfortunately, DEAN RAINEY rejected the Casino Night Auctioning of "A Night with SUSAN BRAITHWAITE."

APRIL 14 Micro Seminar *Role of the M Protein in the patrogenesis of SSPE* Dr.

Nail Lurain, LUMC 4:00 PM, Thurs. Rm 5692

APRIL 21 Neuroscience Seminar: *The Modular Organization of the Neocortex* Dr. Vernon B. Mountcastle, Johns Hopkins.

CASINO NIGHT This year's fundraiser is being held on Friday, April 22 and promises to be an extravaganza which will make last year's event look like a "Pub Crawl"!!! This year's prizes already include a round trip for two to Florida, a home computer, a color TV, a bicycle, etc!!!

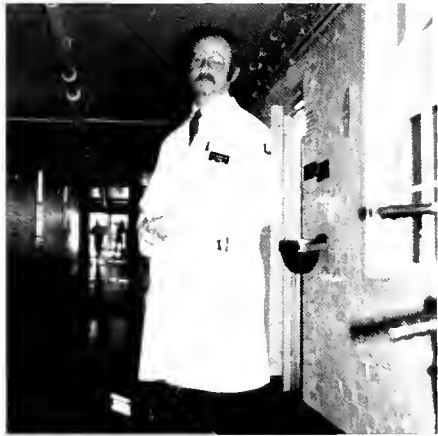

Sexual Response of the Female (Review by Adam) Limited showing at LUSSOM, Rm. 2706. The house filled early, to standing room only for this timeless classic. The audience was not disappointed and each went away satisfied in his or her own way. The performer was superb and so lifelike that this viewer was convinced that the action was genuine. The plot was deep in this short film.

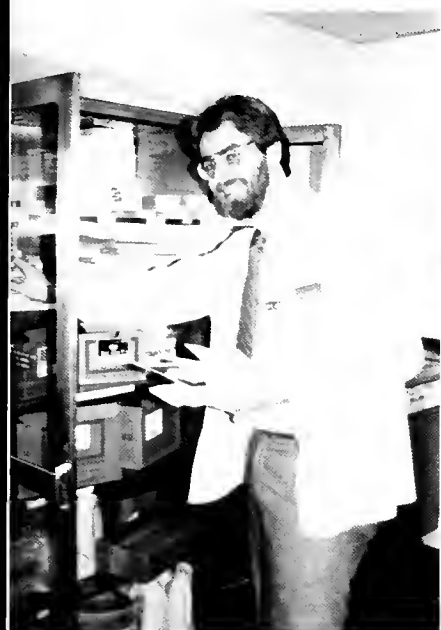

Sexual Response of the Male (Review by Eva) This film was not for the weak at heart. Although the original was replaced by a more virile and competent performer, it did not detract from the film. In fact it allowed a better look at what males have to offer in today's world. This viewer was shocked to discover the large number of freshman males who crowded the theater. This leads one to wonder how many were from California. The action started slow, but grew quickly and finished with a rousing finale. The wide lens photography and sound effects added immensely to the enjoyment of this film.

Recollections of my Class of '85 Linda Klaitman Remember when ... Dr. Lavella couldn't stop laughing ... We sang happy birthday to Dr. Wezeman ... Dr. Lipsius described "irrevocable death" ... Danash had trouble focusing the slide projector ... Dr. Mantuffel got hit by a flying screen ... Stu Goldman sang "Obturator oh would you help me move my leg?" ... Dr. Haberland kept saying "Da NeCROsis"

of de TALamoose" ... Brad Koloms was the guinea pig for Dr. Brazis in Neuro ... all eyes were on Joan Nawrocki and Dava Nelson while they danced up a storm ... We missed the FREI TEST on the Micro test ... Terry Mayars made a great bunny ... We heard Kuh-pill-uh-ree pronounced Is this a tort or contract case? DEAR ABBEY, Why? Signed Confused ... Dear Confused: Why Not? (I think you are crazy.) "The second pulmonary embolus may kill the pt. and that's what you're trying to do." "The sex status I don't, uh, recee and sex I'm not sure." J. Goldberg "Now what heppens? Age, sex, recee!" W. Wood "All patiants will eventually swallow." Dr. Getti

The basic science/clinical transition was a popular time to transfer: CRAIG GERARD to Bowman Grey, VIVIAN TOM to New York Medical, BRUCE LOWRIE to Case Western (wedding plans for October), BOB MILLAR to Univ. of Iowa (more wedding bells in December) and JOAN LEWIS to Martin Luther King School of Medicine. We also lost three to the MD-Ph.D. program here at Loyole: DON RUBENSTEIN, RAVI SALGIA, and MARC GERDISCH. We lost a few, but gained two: KATIE DUDLEY coming to us from St. Louis Univ, and MARTHA WOODHOUSE, from Craighton. Katia is currently in medicine at Loyole, and Merthe is in Medicine at St. Francis. WELCOME! Official class count is 123.

Dr. Ralph Laischnar was voted OUTSTANDING BASIC SCIENCE TEACHER by our class. He was presented with a plaqua at the St. Luka's Dinar, and asked that I pass on his sincera thanks. Our wild card lottery system is working very well. The lotterias are avaraging an 88% first choice, and 12% second choica rate. Thara have been several lotterias where no one has gotten their 3rd or lower choice!

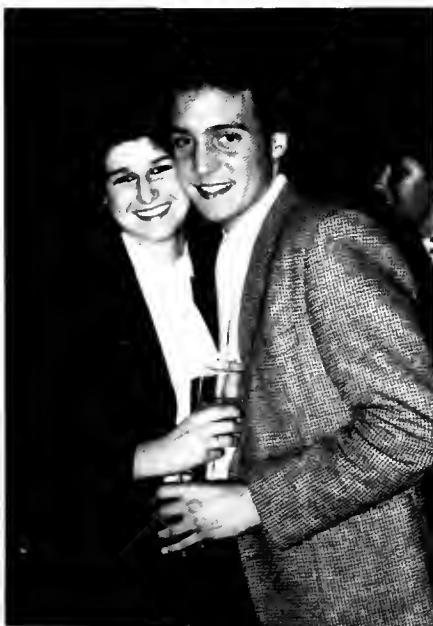

Congretulations to BOB BROCKMAN on his engagement! Remember when Linda Klaitman ... the only thing keeping you going was looking forward to going home at the end of the day, and on call days you just resigned yourself to being depressed ... you were at Hines' canteen ... your resident asked an obtunded patient who was the

president of the U.S., and your patient replied, "Uh, nobody." ... and your resident quickly said, "you're right!" ... We are in the process of working with the Associate Dean's office putting together THE Career information night. The Residency application process will be explained.

HOMETOWN: MADERA, CALIFORNIA
SPECIALTY: FAMILY MEDICINE
MEMORABLE ACTIVITIES:

Success does not necessarily mean that we must earn a great deal of money and live in the biggest house in town. It means only that we are daily engaged in striving toward a goal that we have independently chosen and feel is

worthy of us as persons. A goal, whatever it may be, is what gives meaning to our existence. It is the carrot on the stick that keeps us striving — that gives us a reason for getting out of bed in the morning.

MY "SPECIAL PERSON":

JEFFREY AOKI
 PATRICIA SANTOS

Engagement announced

Mr. and Mrs. Joseph C. Santos Sr. announce the engagement of their daughter Patricia Ann, to Jeffrey Eijiro Aoki River Forest, Ill. He is the son of Mr. & Mrs. Mitsuyoshi Aoki of Madera

The engagement was officially announced by the bride's father during dinner at the Smugglers Inn Restaurant Fresno attended by relatives of prospective bride and groom. A toast the engaged couple was made by the un of the bride-elect, Tony P. Santos Strathmore.

The bride-to-be is a 1974 graduate

Valerie Chirugi

Greg Christensen

I entered medical school with the 3 D's ... *dedication, determination, and drive* ... to Denver, San Diego, Tampa, anywhere but Maywood. Thank God for coops ... 1981-82 was the best year of my life. I saw less of Loyola than before I started school ... 1983-84 was the worst year of my life. The party was over as 3rd year began, and my only birthday card was from Father Fahey ... After going to Loyola, you'd think the only basketball team on earth was Notre Dame. But after watching them kick that ball around, you realized they were more of a rugby team ... Here's to Stu Goldman, a true Iowa Hawkeye fan. Here's to Don Kim, the other phantom of the class. And here's to never having to work another service with Bill (repeat after the Attending) Hoffman.

"And let your best be for your friend.
 If he must know the ebb of your tide,
 let him know its flood also.
 For what is your friend
 that you should seek him with hours to kill?
 Seek him always with hours to live.
 For it is his to fill your needs,
 but not your emptiness.
 And in the sweetness of friendship
 let there be laughter, and sharings of
 pleasures.
 For in the dew of little things
 the heart finds its morning and is
 refreshed."

*This is to all my friends without whom I could
 never have survived the last four years. May
 you all find the happiness you deserve.*

Stewart Goldman

I Lied To You"
(The History and Physical Song)

On the ward they sent me
with my white coat
Walsh-Allen in my pocket,
a lump inside my throat.

The patient I was to see said
"You're just a kid".
Ha told me to get out of there.
I can't believe what I did.

I said lungs wara rasonant,
ha drank tan beers a day,
I said his liver was enlarged,
I faked the H & P.

Chorus

I lied to you, I lied to you,
I lied to you,
Cause I did not see his anatomy.
I lied to you, I lied to you,
I lied to you,

But I was home by half past three.

I did not see his fundi
but I put down
"the discs they ara so sharp end clear,
the margins they ara round."

About his ganitalia,
this I did not see,
but I wrote down on my H & P,
"they looked alright to ma."

His DTR's wara normal,
at laeat I thought they must.
I could not feel his poplitaal,
so I said it was 3+.

Chorus

"Sung to the tune of Bruce
Springsteen's "I Came for You"

Bruce Groom

DESIDERATA

Now there was a man of the Pharisees named Nicodemus, a member of the Jewish ruling council. He came to Jesus at night and said, "Rabbi, we know you are a teacher who has come from God. For no one could perform the miraculous signs you are doing if God were not with him."

In reply Jesus declared, "I tell you the truth, unless a man is born again, he cannot see the kingdom of God."

"But," said Nicodemus, "how can a man be born when he is old? Surely he cannot enter a second time into his mother's womb to be born!"

Jesus answered, "I tell you the truth, unless a man is born of water and the Spirit, he cannot enter the kingdom of God. Flesh gives birth to flesh, but the Spirit gives birth to spirit. You should not be surprised at my saying, 'You must be born again.' The wind blows wherever it pleases. You may hear its sound, but you cannot tell where it comes from or where it is going. So it is with everyone born of the Spirit."

"How can this be?" Nicodemus asked.

"You are a teacher of Israel," said Jesus, "and do you not understand these things? I tell you the truth, we speak of what we know, and we testify to what we have seen, but still you people do not accept our testimony. I have spoken to you of earthly things and you do not believe; how then will you believe if I speak of heavenly things? No one has ever gone into heaven except the one who came from heaven—the Son of Man. Just as Moses lifted up the snake in the desert, so the Son of Man must be lifted up, that everyone who believes in him may have eternal life.

"For God so loved the world that he gave his one and only Son, that whoever believes in him shall not perish but have everlasting life. For God did not send his Son into the world to condemn the world, but to save the world through him. Whoever believes in him is not condemned, but whoever does not believe stands condemned already because he has not believed in the name of God's one and only Son. This is the verdict: Light has come into the world, but men loved darkness instead of light because their deeds were evil. Everyone who does evil hates the light, and will not come into the light for fear that his deeds will be exposed. But whoever lives by the truth comes into the light, so that it may be seen plainly that what he has done has been done through God." (John 3: 1-21)

TO ALL STUDENTS:

Tuition for the 2nd semester of the 1977-78 academic year will be due the week of January 2, thru January 4, 1978. The amount of tuition and fees is listed below by class. A LATE FEE OF \$50 WILL BE ASSASSSED FOR PAYMENTS RECEIVED AFTER THE DATES INDICATED.

Students who will be on clerkships away from Loyola are advised to mail payments to the bursar's office, or to pay before the due date.

1st & 2nd Year Students:

<u>RESIDENT</u>		<u>NON-RESIDENT</u>	
Tuition	\$5,350	Tuition	\$6,150
Student Health	42	Student Health	42
TOTAL	\$5,392	TOTAL	\$6,192

3rd Year Students:

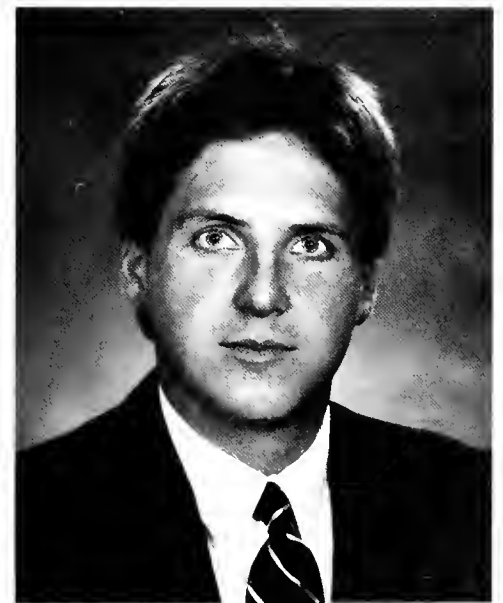

Tuition	\$5,550
Student Health	42
TOTAL	\$5,592

4th Year Students:

Tuition	\$5,550
Student Health	42
Prerequisite Fee	30
TOTAL	\$5,622

Student health fees for approvals and depositions should be paid at this time as well as a prerequisite fee for 4th year students.

Class, I want you to know I love all of you very much, and I am convinced that neither death nor life, neither angels nor demons, neither the present nor the future, nor any powers, neither height nor depth, nor anything else in all creation, will be able to separate us from the love of God that is in Christ Jesus our Lord, and our Messiah!

My colleagues, how I wish with all my heart that you, my classmates might be saved! How I pray to God for you! I can testify about you that you are zealous, but your zeal is not based on true knowledge. You have not known the way in which God puts men right with himself, and have tried to set up your own way; and so you have not submitted yourselves to God's way of putting men right. For we cannot have peace with God through

personal achievement, but through Christ everyone who believes is put right with God. God's message is near you, on your lips and in your heart — that is, the message of faith that I proclaim. If you declare with your lips, "Jesus is Lord," and believe in your hearts that God raised him from the dead, you will be saved. For we believe in our hearts and are put right with God; we declare with our lips and are saved. The scripture says, "Whoever believes in him will not be disappointed." This includes everyone, because there is no difference between Jews and Gentiles; God is the same Lord of all, and richly blesses all who call on him. Truthfully I can testify to you that my life is at peace with God and I would not have it any other way. (Above text adapted from Romans 8:38,39; 10:1-4, 8-15)

In an insane society, the sane man must appear insane. Spock

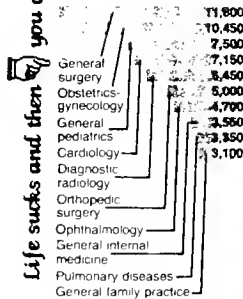

Once you've given up integrity, the rest is easy. J. R. Ewing

Remember when ...
Basic Sciences We sang happy birthday to Dr. Wezemen 17 times one week ... Tom Moulton came into our class to announce the lecture series "Death & Dying" ... For hyperventilation, "GET THE BAG OUT!" ... The Cadaver flipped off the table ... Dr. Thomes knew he was balding because it took him longer to wash his face in the morning ... De Necrosis was in De TALamoose ... Dr. Yotis said "You know,"
Medicine I You thought you heard an early diastolic murmur but your intern said you didn't hear it, but your resident said you did hear it, but your clinical instructor said you did hear it ...

Surgery Your resident would yell, "Hold it Up Higher!" And no matter what position it was in, the retractor was never high enough ...

OB/GYN You learned the new art of OB/GYN surgery, forgetting most of the good technique you learned on General Surgery ...

Pediatrics Mitch Ketz went on a transport and the ambulance caught on fire ...

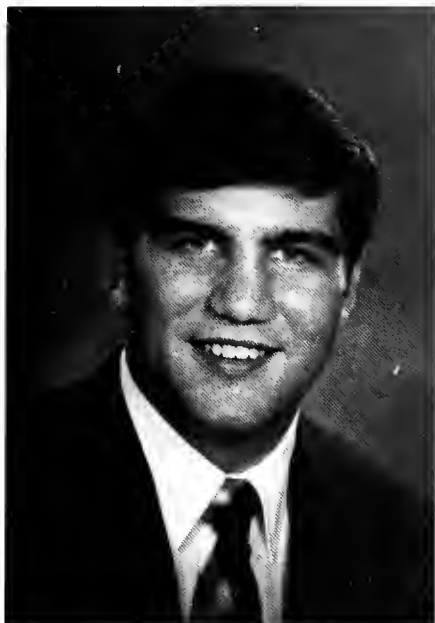

Psychiatry Every time you asked, "What day is it? Who was the president before Reagan?", you realized that you, too were disoriented and had a memory loss ...

Medicine II You were up all night putting in IV's, and you got to the point where you couldn't look at someone's arm without examining it for potential stick-a-ble veins ...

Extramural Electives You realized that there really are humane hospitals out there where attendings believe that senior students don't need to be on call or work on weekends ... Now, weren't those the days? Hope things can only get better ...

Bradley Koloms

Thank you for all your support during the Sophomore COOP. Best of luck to all of you.

Reflecting

The friends I met while at LUMC,
Will always be in my memory.
A mix of people we had there,
And how much work we did bear.
We studied long hours to get at least a "P",
Always remembering that "P=MD".
And when the cramming was done
We found ways to have our fun.
For we all knew so well,
That partying made our stress easier to
dispell.
With the clinical years we applied,
The knowledge of basic sciences we tried.
Now we wait to hear the news,
Of where we'll be assigned to soon.
On our graduation ceremony day,
The Class of '85 will come to say,
How we grew in mind and heart,
To become members of the Science and the
Art.

Prayer of St. Francis

*Lord, make me an instrument of your peace.
Where there is hate, let me sow love,
Where there is injury, let me sow a pardon,
Deer as the blowing sea
Where there is doubt, let me sow faith,
Where there is despair, let me sow hope,
Where there is darkness, let me sow a light,
Oh loving Lord, may I not seek to be understood
as to understand, to be consoled as to console
or to be loved as to love man
For it is in giving that we receive, it is in
forgiving that we are forgiven and it is
in dying that we are born to eternal life. Amen*

*There are places I remember all my life,
though some have changed.
Some forever not for better
Some have gone and some remain.
All these places had their moments,
with lovers and friends I still can recall.
Some are dead and some are living
In my life I love them all.
Though I know I'll never lose affection
for people and things that went before.
I know I'll often stop and think about them
In my life, I love them ... Lennon and McCartney*

Best of wishes
to
Stitch's
'Class' of '85
S. Porto

My own most memorable experience was during a CABG in CV surgery at Hines. After being yelled at repeatedly during the case for not using the suction enough (as well as doing it poorly), I resolved in my mind to do better with the next opportunity. Hearing the next insistent demand for suction, boldly I plunged the suction tip blindly into the pericardial space. A horrible sound was heard almost immediately as the distal segment of the saphenous vein graft was being sucked off its proximal anastomosis on the aorta and into the suction bottle. Needless to say, my services were no longer required during that rotation. Yes, memories like these (and there's plenty of 'em) will sweeten all my remembrances of LUMC. Thanks to everyone for four fun-filled years. It has been a million laughs and lots of priceless memories.

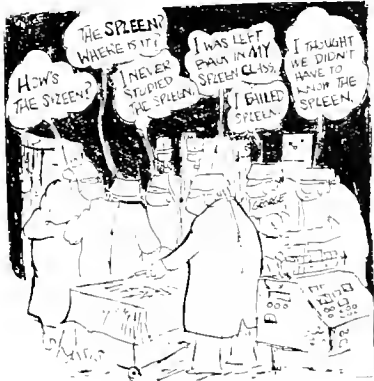

Michael Pruchnicki

Michael Rezak

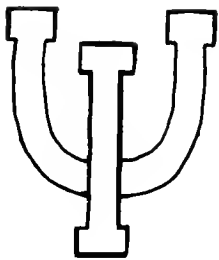

David Rosenbaum

If there is one wish I have for all of us, it is that we remember what it is like to be ignorant and unconfident, and to remember the kindness and patience of many of our teachers. Let us try to ease the way for those who come behind us instead of perpetuating those old school traditions whose time has past. The goal of medicine is to heal and comfort. How can we help others unless we also help ourselves? Good luck to all! Thanks for many good memories. Diane

Stephen Sainati

To all those frustrated by trying to keep up with an ever-burgeoning body of medical literature, the words of Solomon, the son of David, the king in Jerusalem:

What profit does a man have in all his hord work at which he toils under the sun? A generation is going, and o generation is coming; but the earth is standing even to time indefinite . . . And myself, have seen all the hard work and all the proficiency in work, that it means the rivalry of one toward another, this is also vanity and a striving after the wind . . . Just as one has come forth from his mother's belly, naked will one go away again, just as one come, and nothing at all can one carry away for his hard work, which he con take along with his hand.

And I saw all the work of the true God, how mankind are nat able to find out the work that has been done under the sun; however much mankind keep working hard to seek, yet they do not find out. And even if they say they are wise enough to know, they would be unable to find out . . . To the making of many books there is no end, and much devotian to them is wearisome to the flesh.

The conclusion of the matter, everything having been heard, is: Fear the true God and keep his commandments, for this is the whole obligation of man.

(Ecclesiastes 1:3; 4.4, 15; 8:17; 12:12, 13)

If I had my life to live over, I'd dare to make more mistakes next time. I'd relax, I would limber up. I would be sillier than I have been this trip. I would take fewer things seriously. I would take more chances. I would climb more mountains and swim more rivers. I would eat more ice cream and less beans. I would perhaps have more actual troubles, but I'd have fewer imaginary ones.

FOUR YEARS AT STRITCH

Freshman Year: Bunny Ears. Poker Games. "What is the liver? It's a big sponge!" "Get the bag out!" "I'll never go into psychiatry." Here come the Schmidt brothers. David Frank gets into a fight at Comiskey Park. Wait until the clinical years — no more bullshit!

Sophomore Year: Let's learn about war gases! Who cares what the bacillus eats for dinner. More poker games. Let's see how many medical students we can fit into Giordano's! David Frank gets into a fight at Comiskey Park. Uh, You know! The scrotum - it gets big! In your next lecture handout page ... Wait until next year — no more bullshit! "I'll never go into psychiatry."

Junior Year: At least in the basic sciences we didn't have to put up with this bullshit! Still more poker games — "The big Mo" emerges. Ellie, you are about to see the biggest mismatch in Rose Bowl history ... Oops! Wrong team. Wait until the Super Bowl — The 'Skins will bury the Raiders. Ven you do barium enema, how many times you squirt? Feefty or seexy times. David Frank goes to Wrigley field and doesn't get into a fight. "I'm going into pyschiatry." Making perverted faces at Joan Nawrocki. Bob & Kevin's moving service.

Senior Year: Even more poker games. Screwed by the match. Positive nice person sign. Postive happy sign. Turning 30 at last — Opaal! Lunch with "Bob and Haze".

THANKS FOR THE MEMORIES, EVERYONE!!!

The secret of life
 is enjoying the passage of time.
 Any fool can do it,
 there ain't nothing to it.
 Nobody knows how we got
 to the top of the hill.
 Since we're on our way down,
 we might as well enjoy the ride.
 The secret of love
 is in opening up your heart.
 It's ok to feel afraid,
 don't let that stand in your way.
 Cause anyone knows
 that love is the only road.
 Since we're only here for awhile,
 might as well show some style.
 Give us a smile ...
 Isn't it a lovely ride,

Sliding down, gliding down,
 Try not to try too hard,
 it's just a lovely ride.
 Now that thing about time
 is that time isn't really real.
 It's just your point of view,
 how does it feel for you?
 Einstein said
 he could never understand it all.
 Planets are spinning thru space.
 A smile upon your face,
 Welcome to the human race,
 Some kind of lovely ride.
 I'll be sliding down,
 I'll be gliding down.
 Try not to try so hard,
 it's just a lovely ride.

Martha Woodhouse

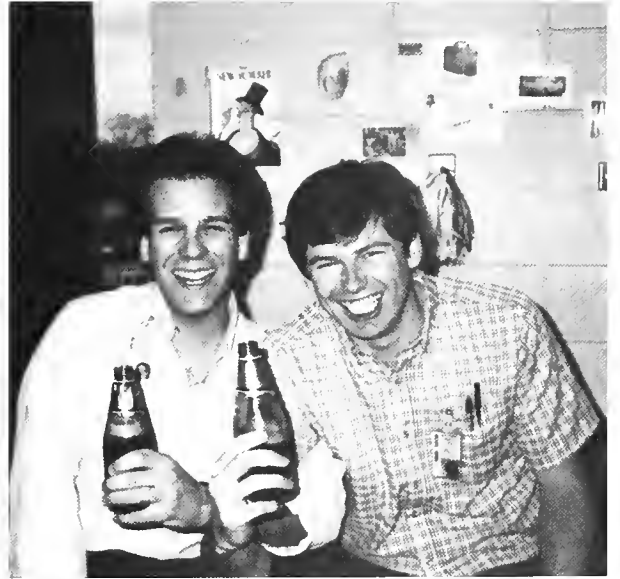

There was a young housewife who lived in a zoo,
She had so many children she didn't know what to do.
She gave them some broth without any bread,
Walked out of the kitchen and studied pre-med.

She suffered through physics, the kids became cooks,
Her husband did laundry while she hit the books.
Said she, "Medicine really fulfills all my wishes;
It sure beats the heck out of doing the dishes."

Anatomy, micro, pharm, physio too —
Julie and Faith, Heather, Adam and Lu —
They're all intermingled, you know, and the fact is
This lady has never left Family Practice.
